

# Oslo Legal Hackathon 2024 Criteria

Team Name:	
Topic*:	

\*Topic: Access to justice OR Enhancement/improvement of the legal profession

## 1. Innovation (50 % – maximum 50 points)

- Does the proposed solution address a real problem in the legal sector?
- Does it provide a novel solution?
- Does it improve on the current situation or existing solutions?
- Is the proposed solution user-centred?
  - o *Have the team gathered and implemented feedback from potential users during the hackathon?  
To what extent does the solution match the users' needs?*
- Can it have a broad or important impact?

## 2. Implementation (50 % – maximum 50 points)

- Can the solution be effectively prototyped or programmed?
- Can the solution realistically be implemented?
  - o *Are there technical, ethical, or legal barriers that would prevent or hinder an implementation of the proposed solution?*
- Is the proposed implementation user-centred?
  - o *How will users' needs and interests be incorporated in the implementation process?*
- Can the solution be economically sustainable?
  - o *This can be in the private, public, or non-profit sector.*
- Does the team's presentation create interest?
